# ABOUT US

*Proud Member*

At Bozcon Construct, Jaiden is the director, overseeing construction, while his wife Georgia manages the behind the scenes operations. Together, they ensure a seamless, high quality building experience. Bozcon is a family run business, and they are proud parents to their daughter, who joined the family in 2025, bringing even more heart to everything they do.

With extensive industry knowledge, Jaiden and Georgia handle everything from custom new builds to complex extensions and renovations, delivering every project on time, within budget and to the highest standard.

Georgia, Jaiden & their Daughter

At Bozcon Construct, we make your next steps simple and stress free. You know what's happening and when, with our team guiding every stage of the project. Our skilled tradespeople deliver exceptional results, with careful attention to detail and a focus on meeting your unique needs.

Tyrone, our Site Supervisor, brings extensive carpentry experience and strong leadership, keeping projects organised and on track while ensuring clients feel at ease throughout the build.

Tyrone - Site Supervisor

**13** Years Experience

We place high importance on worksite safety and make sure any contractors accessing your home are fully licensed and trained. This is our way of protecting you, your family, and our team.

# OUR CAPABILITIES

Jaiden grew up in Chinchilla QLD, where he completed his apprenticeship and learned his trade from the ground up. Working in the country gave him hands on experience across a wide range of projects, from renovations and extensions to custom homes, outdoor areas, garages and residential and industrial sheds.

He's always had a natural curiosity for how things are built. In fact, his mum will tell you he was drawing plans for tree houses before he could even read or write.

Today, Jaiden leads the business with a focus on custom new builds, second dwellings and granny flats, as well as renovations and extensions. **Loyalty, honesty, reliability, and excellence** are the core values that guide how he leads the business, how the team operates and how every project is delivered.

Our licence information is publicly available on the QBCC register.

✓ LIC: 15171902

✓ LIC: 15390857

Future builder in training, 3 year old Jaiden on the job

We hold \$20 million in public liability insurance.

This is our way of protecting you, your family, and our team.

# PROJECTS

---

## CUSTOM NEW HOME BUILD

Completed a bespoke five bedroom, two bathroom home on a spacious 99,934 m<sup>2</sup> site. This pier and beam residence features a beautifully designed outdoor living area and custom, manually fitted handrails, delivering a tailored and high quality finish throughout. Every detail was carefully considered to combine functionality with elegant design, creating a truly unique family home.

## EXTENSION

This extension is a perfect blend of craftsmanship and style. From solid foundations with screw piers and reinforced concrete to a beautifully elevated subfloor and Merbau decking with custom rear stairs and veranda posts. Inside, Karndean Honey Ironbark flooring sets a warm, inviting tone. The pitched roof, timber fascia, and cladding give the exterior a modern look, complemented by bespoke windows, stacker doors, and a Velux skylight that brings natural light inside. Every detail was executed to create a functional and stunning space.

# PROJECTS

---

## CUSTOM VAN & WORKSHOP BUILD

This custom van and workshop project brought a practical yet high quality space to life. From precise earthworks and reinforced concrete footings and slabs to expertly crafted timber frames and trusses, every detail was built to spec. The trimdeck roofing with insulation, brick clad exterior, and freshly painted finish give the structures a professional and durable look. Feature elements like the panel lift doors were carefully framed for strength and functionality, creating a space that's both robust and purpose built for everyday use.

## OUTDOOR AREA & GARAGE

This stunning outdoor pool area combines style and function with striking timber posts as a standout feature, and an insulated panel roof. The adjoining custom timber framed garage was designed as a multifunctional space, housing a gym and sauna alongside storage for cars and equipment. With expert concreting and carefully crafted timber details, this project seamlessly blends a wellness retreat with practical living, creating an inviting space for both relaxation and everyday use.
